

## 96-well skirted PCR plate

- ▶ Made of virgin polypropylene
- ▶ Black marking for easy filling of wells
- ▶ Low profile plate, with a working volume of 0.2 ml per well
- ▶ Corner cut for easy orientation of the plate
- ▶ Stackable
- ▶ Compatible with adhesive films, sealing films and flat and domed cap strips
- ▶ Barcodes available

Cat. No.	Description	Units/ carton	€ Excl. VAT/ carton
044760	96-well PCR plate, skirted	50	NC -

## 96-well semi-skirted PCR plate

- ▶ Made of virgin polypropylene
- ▶ Specially designed for ABI thermal cyclers
- ▶ Natural
- ▶ Manufactured in clean room
- ▶ Contaminant free

Cat. No.	Description	Units/ carton	€ Excl. VAT/ carton
016657B	96-well PCR plate, Semi-skirted	50	NC -
448062	96-well QPCA semi-skirted plate*	50	NC -

## 96-well PCR and qPCR plate for Fast-PCR MicroAmp

- ▶ Virgin polypropylene
- ▶ Specially designed for Fast System and Genetic/DNA Analyzer thermal cyclers
- ▶ Ultra-thin wall: promotes fast, optimal and homogeneous heat transfer (increased reproducibility)
- ▶ Constant well thickness: reduces experimental artefacts

017985	96-well PCR and qPCR plate for Fast-PCR MicroAmp	10	NC -

## Endura 96-well PCR and qPCR plate

- ▶ Virgin polypropylene
- ▶ Robust, high plate stability in post PCR
- ▶ Alphanumeric marking
- ▶ Ultra-thin wall: promotes fast, optimal and homogeneous heat transfer (increased reproducibility)
- ▶ Suitable for use in robotics or high-speed platforms

## 96-well optical PCR and qPCR plate

- ▶ Made of polypropylene
- ▶ No auto-fluorescence
- ▶ Uniformity of temperature from one well to another
