

## FluoroNunc plates and strips

White, black or transparent 96-well microplates for fluorescence and luminescence

- Black microplates : for fluorescence and luminescence; they scatter light and reduce background noise.
- White microplates : for fluorescence and luminescence; maximise signal and eliminate autofluorescence and luminescence problems.
- Transparent microplates : they greatly reduce background noise while allowing optical reading.

### ► Surface Quality

- Non treated
- Treated for sterile cell cultures
- With high adsorption surface (MAXISORP) or medium adsorption (POLYSORP)

All plates are flat bottomed (F) or flat bottomed with curved edges (C).

Bottom	Sterile	Lid	Black	White	Transparent	Pack unit.	Units/carton	€ Excl. VAT/carton

### Accessories

Cat.No	Description	Packaging unit	Units/carton	€ Excl. VAT/carton
055143	Lid for plate	5	100	NC -
055144	Sterile lid	1	150	NC -

## LumiNunc white luminescence plates

White 96 or 384 well plates with maximum reflection, auto-fluorescence and minimum auto-luminescence.

Surfaces :

- MAXISORP: high protein affinity;
- POLYSORP: medium adsorption ;
- Treated for sterile cell cultures.

### Immuno treatment (without lid)

Cat.No	Description	Packaging unit	Units/carton	€ Excl. VAT/carton
055221	MAXISORP 96-well flat bottom plate	10	80	NC -
055223	POLYSORP 96-well flat bottom plate	10	80	NC -
055219	96-well flat bottom plate, non treated	10	180	NC -
055457	MAXISORP 384-well plate	10	30	NC -
055347	1536-well plate	10	30	NC -
