

Transferettes 8-channel

- ▶ Clear polyethylene pipettes
- ▶ Delivers approximately 600 µl per channel
- ▶ Available in sterile and non-sterile versions

Cat. No.	Description	Units/box	€ Excl. VAT/box
085017	Non-sterile Transferpette	25	NC -
085018	Sterile Transferpette	100	NC -

Quick Read Slide with counting grid

- ▶ High optical quality acrylic slide
- ▶ Includes 10 counting chambers with grids for counting
- ▶ Volume of each chamber: 6.3 µl
- ▶ L x W : 83 x 31 mm
- ▶ Thickness: between 1 and 2 mm
- ▶ Non-sterile
- ▶ In PMMA (polymethylmethacrylate)

Cat. No.	Description	€ Excl. VAT/100 units
380500	Quick Read Slide	NC -

G-slides single-use counting cells

- ▶ Single use, no tedious cleaning, no risk of cross-contamination
- ▶ Light, transparent glass
- ▶ Reduces the risk of exposure to infected products
- ▶ Material: PMMA (polymethyl methacrylate)
- ▶ Ext. dim. : 25 x 75 mm, thickness : 1.2 mm
- ▶ Grids Neubauer, Burker Turk, Fuchs-Rosenthal ; refractive index : 1.59; transparency same as glass (>86 %)

▶ Applications

- ▶ Cell tests: cell concentration, viability tests
- ▶ Blood analysis, blood cell count
- ▶ Microbiology: spore and bacteria counts
- ▶ Clinical medicine: sperm counting for IVF
