

## Automated heat sealer ALPS 5000 for plates

- ▶ Quick sealing
- ▶ Parameterisable for process optimisation
- ▶ Compatible with high performance automated applications
- ▶ Electric drive reduces the risk of contamination and the noise level compared to a pneumatic drive
- ▶ Sealing of plates from 8 to 46 mm high without adapters

Cat. No.	Description	€ Excl. VAT
262998	Automatic plate sealer ALPS 5000	NC -

## Semi-automatic plate sealer Sealbio-2

Semi-automatic sealer with adjustable time and temperature parameters for reproducible sealing. Suitable for many fields and accepts different types of PCR plates, Deepwell, SBS format plates and storage plates.

- ▶ Adjustable temperature : 80 °C - 200 °C (accuracy 1 °C)
- ▶ Automatic counting function
- ▶ Supplied with plate adapters

Sealing temperature	80 °C - 200 °C
Plate height (mm)	9 to 48
Dimensions (mm) / Weight (kg)	370 x 178 x 330 / 9.6
Compatible plate materials	PP/PS/PE
Type of plate compatible	SBS, DeepWell, PCR
Cat. No.	531506
€ Excl. VAT	NC -

thermo scientific

## SuperSealer Matrix heat sealer

- ▶ To seal polypropylene blocks and plates with a mat or film
- ▶ Speed : 0 to 15 seconds per plate
- ▶ Perfect sealing for storage of tubes at -80 °C
- ▶ Dimensions : 16.5 x 31.7 x 34.3 cm

Principle: place the block in the drawer of the appliance, put the mat on the block and close the drawer. The device automatically adjusts to the height of the block and applies the appropriate force to the mat.
