

Crystalgen™ 24-well Plates

Available in pre-greased version

- ▶ For the suspended drop crystallisation technique during the condensation phase
- ▶ For use with silicone coated round or square coverslips
- ▶ Ultra transparent polystyrene
- ▶ Well volume: 3.5 ml
- ▶ Plate dimensions : 150 x 108 x 22 mm
- ▶ Well dimensions : 17 x 16 mm
- ▶ For pre-greased plates, the grease is applied using a patented procedure to the raised flanges of the plates: ensures a better seal of the plates with the coverslips
- ▶ With raised flange for a better seal of the coverslips

- ▶ Reliable cone pick-up
- ▶ Technical support available
- ▶ Tips manufactured under quality control to Tecan specifications
- ▶ Colour-coded racks for different volumes, completely integrated with the software for easier visual identification on the workbench
- ▶ Increased flow rates, autonomy and flexibility of the system thanks to stackable and SBS formats

\* contains 10 x 24 cones \*\* 16 x 5 rounds of 96 tips  
Empty SBS racks : 30058506 (for 50 µl and 200 µl refills); 30058507 (for 1000 µl refills)

Stackable racked tips for LiHa arms

Stacking of 5 racks of 96 pins, increases the capacity of the automat. Empty racks can be removed and discarded using a RoMa robotic arm or an MCA gripper module.

Allow the pipetting arm to pick up an empty rack and discard it without the need for a gripper module. Easily configurable functions via the Freedom EVOware interface.
