

Sterilisation foils

- According to ISO 11607, EN 868, CE
- For the packaging of parts to be sterilised, from the lightest to the most demanding

Sterilisation foils made of crepe paper

- The standard paper for packaging kits and lightweight instruments
- 100% medical grade cellulose paper
- The "Crepe Sensitive" material is softer and more flexible to use

White	Green	Dim. L x W (cm)	Units/box	€/box
Standard Crepe paper				
019504	019512	80 x 80	250	NC -
019505	019513	90 x 90	250	NC -
019506	019514	100 x 100	250	NC -
019507	019515	120 x 120	125	NC -
"Sensitive" crepe paper				
019517	019522	75 x 75	250	NC -
019518	019523	90 x 90	250	NC -
019519	019524	100 x 100	250	NC -

Alternately stacked sheets

- Damage to the packaging is more easily distinguishable through the alternately stacked sheets
- Use the green non-woven fabric in internal packaging

Cat. No.	Dim. L x W (cm)	Units/box	€/box
Blue/green non-woven 52 g/m²			
019544	75 x 75	200	NC -
019545	90 x 90	200	NC -
019546	100 x 100	200	NC -
019547	120 x 120	100	NC -
019548	120 x 140	100	NC -
SMMS 43 g/m² and green non-woven 57 g/m²			
019573	75 x 75	200	NC -
019574	100 x 100	200	NC -
019575	120 x 120	120	NC -
019576	140 x 140	120	NC -
SMMS 60 g/m² and green non-woven 67 g/m²			
019577	100 x 100	160	NC -
019578	120 x 120	120	NC -
019579	140 x 140	80	NC -

Non-woven sterilisation sheets 52 g/m²

- For packaging instrument baskets and textiles

Blue	Green	Dim. L x W (cm)	Units/box	€/box
019526	019537	50 x 50	500	NC -
019527	019538	60 x 60	500	NC -
019528	019539	75 x 75	200	NC -
019529	019540	90 x 90	200	NC -
019530	019541	100 x 100	200	NC -
019531	-	100 x 140	100	NC -
019532	019542	120 x 120	100	NC -
019533	-	120 x 140	100	NC -
-	019543	130 x 130	100	NC -
019534	-	130 x 150	100	NC -
019535	-	140 x 140	100	NC -
019536	-	150 x 190	100	NC -

Non-woven sterilisation sheets 59 g/m²

- Recommended for internal packaging of heavy parts
- Made of cellulose blend with polyester fibres: good strength and drape

Blue	Dim. L x W (cm)	Units/box	€/box
019549	60 x 60	500	NC -
019550	75 x 75	200	NC -
019551	90 x 90	200	NC -
019552	100 x 100	200	NC -
019553	120 x 120	100	NC -
019554	140 x 140	100	NC -

Polypropylene non-woven sterilisation sheets SMMS 37 g/m² or 60 g/m²

- Polypropylene fibres in 4 layers: The 2 Spunbond layers provide exceptional flexibility and drapability, whereas the 2 meltblown layers provide excellent defence against bacteria.

- Offers good tear resistance

Blue	Dim. L x W (cm)	Units/box	€/box
37 g/m²			
019555	75 x 75	200	NC -
019556	90 x 90	200	NC -
019557	100 x 100	200	NC -
019558	120 x 120	120	NC -
019559	120 x 140	120	NC -
019560	140 x 140	120	NC -
019561	140 x 190	80	NC -
60 g/m²			
019570	100 x 100	104	NC -
019571	120 x 120	96	NC -
019572	140 x 140	80	NC -

Polypropylene non-woven sterilisation sheets SSMS 43 g/m²

- Non-woven polypropylene 43 g/m²

- For packaging heavier medical products

- Promotes the absorption of residual moisture after sterilisation

- Compliant with DIN EN 13795: surgical drapes for "less critical areas"

- 1 blue side, 1 purple side

Cat. No.	Dim. L x W (cm)	Units/box	€/box
019562	50 x 50	500	NC -
019563	75 x 75	200	NC -
019564	90 x 90	200	NC -
019565	100 x 100	200	NC -
019566	120 x 120	120	NC -
019567	120 x 140	120	NC -
019568	140 x 140	120	NC -
019569	150 x 190	48	NC -
