

Eppendorf TrackIT

- RFID chip reading of Eppendorf micropipettes
- Centralized storage of essential information, such as calibration data for each micropipette

Cat. No.	Description	€ Excl. VAT
933039	Eppendorf TrackIT, software and RFID reader	NC -

Eppendorf pipette carousels, charger holders and wall-mounting devices

- The manual micropipette carousel holder is compatible with all existing Eppendorf pipettes and most pipettes from previous ranges
- The carousel charger rack holds up to six electronic devices thanks to the magnetic connector that allows for quick and easy connection
- Micropipette holders can be mounted on the wall or on carousel racks (no tools required, wall mounting tape included)
